### DESCRIPTION OF PROPOSED WORKS

This water was developed by a tunnel 100 feet into the canyon

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

which was later washed out by a flood and the water flows to the surface

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions

of the creek bottom where the applicant has constructed check dams

forming small ponds where the cattle can drink.

5. Estimated cost of works \$800.00

6. Estimated time required to construct works completed in 1905

7. Remarks These check dams must be repaired each year.

For use of applicant

This application is made without a waiver of any priority

right the applicant may have acquired by the constant use of this watering place for his cattle since the year 1905.
